

**Gravimetric
dosing technics
adapted for
your production...**

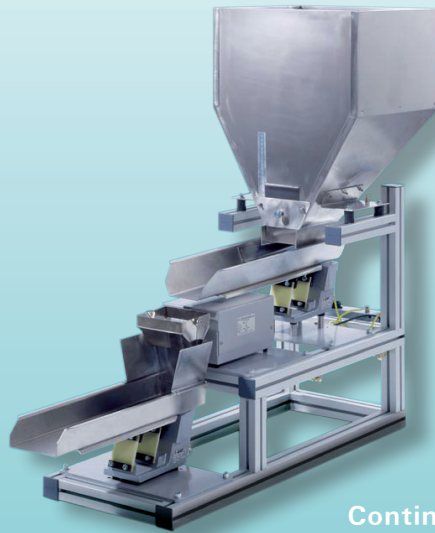

KTG ENGELHARDT
WÄGE- UND DOSIERTECHNIK

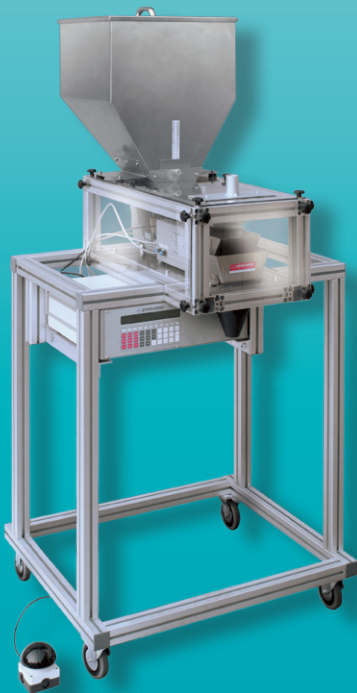

**Batch weigher with integrated
agitator drum**

- Weighing Range: 5g - 5000g¹⁾
- Materials: Mixing and friction materials and all kinds of bad flowing bulk materials

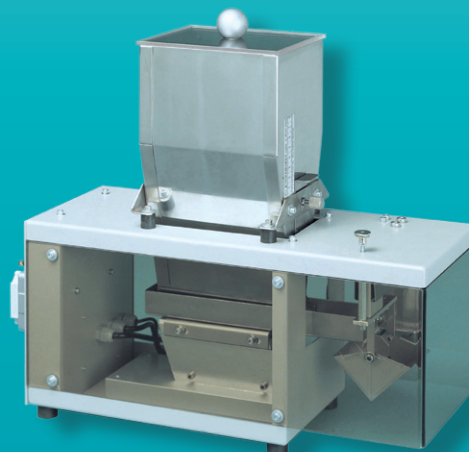

**Continuous dosing weighers as
single- or multicomponent systems**

- Throughput: 0.05kg/h - 2000kg/h¹⁾
- Materials: Granulates, powder, glass fibre and all kinds of bulk materials

Weighing- and dosing processor

- Compatible with all dosing systems
- Customers specific programming
- Controlling of peripheral devices
- Communication bus to central control units

**Batch- and counting weighers as
single- or multicomponent systems**

- Weighing Range: 0.01g - 5000g¹⁾
- Materials: Granulates, metalpowder, abrasives, glass fibre and all kinds of bad flowing bulk materials

**Use our know-how
for your production!**
